EDUCATION

B.E in Computer Science

Bannari Amman Institute of Technology

2023 – 2027

CGPA: 7.76 (Up to 5th Semester)

PROFESSIONAL EXPERIENCE

AI/ML Engineering Intern

Creozen, UK

Aug 2025 – Present

- Developed a scalable AI-driven people counting solution using NVIDIA DeepStream and TensorRT optimized PeopleNet.
- Delivered high-accuracy real-time footfall statistics across multiple surveillance feeds.
- Enabled real-time crowd analytics to support data-driven decision making.

PROJECT EXPERIENCE

Robotic Grasping System using YOLO | YOLOv11, Computer Vision

- Engineered robotic vision system detecting hand-object interactions in real time.
- Designed grasping strategy using Oriented Bounding Boxes (OBB) for stable robotic pickup.
- Integrated depth estimation with real-time processing for adaptive robotic handling.

Aerial Human Detection System | YOLOv11, Drone Vision

- Built DroneVision Human Analytics Engine for human detection from aerial footage.
- Achieved high-precision real-time monitoring for field surveillance.

Insurance Risk Predictor | Random Forest, Machine Learning

- Developed AI model using Random Forest for insurance risk prediction.
- Applied feature engineering and cross-validation techniques.
- Predicted risk levels for agriculture, healthcare and property insurance.

VisionText Document Analyzer | PaddleOCR, NLP

- Built OCR pipeline extracting text from documents using PaddleOCR.
- Converted unstructured documents into structured searchable datasets.

TECHNICAL SKILLS

Programming Languages: Java, C++, C, Python

AI / ML Frameworks: PyTorch, Scikit-learn, FastAPI

Deep Learning: CNNs, Transformers, ResNet, YOLO, DeepSORT, PaddleOCR, NVIDIA DeepStream

NLP & LLM: BERT, Whisper, Retrieval-Augmented Generation (RAG), LLaMA, Gemini, MCP

Computer Vision: OpenCV, DINO, SAM (Segment Anything), Real-Time Object Tracking

Data Analysis: Pandas, NumPy, Matplotlib, Seaborn

Tools: Git, VS Code, Google Colab, Vercel, OnRender

PROFESSIONAL SKILLS

End-to-End Development to Real-Time Deployment | Agile-Based Reporting & Delivery | Problem Solving & Critical Thinking | Communication & Leadership

CERTIFICATIONS

AWS Certified Cloud Practitioner | Salesforce AI Associate | Finalist – NIDAR Drone Competition (National-level UAV and AI competition)
